This may be information overload but sharing just in case you need something quickly.

Thanks,
(b) (6)

(b) (6)

(b) (6) provided this response to OSD on Friday and (b) (6)'s information regarding the difference in child on child juvenile sexual assault cases and sexual problem behaviors in children under the age of 12.

Let me know if you have additional questions.

V/r,

Subject: RE: HOT - Urgent Info Needed on Child on Child Cases

Good Morning, (b) (6)

Below are the Navy responses to your inquiries:

QUESTION 1: Please provide a copy of any FAP response/information you were tasked to provide at the Service level related to the child on child AP article(s)?

RESPONSE: On 15 March, (b) (6) briefed at the Parade of Captains, and she also prepped CNP for his SASC testimony. During the briefing a report on sexual abuse of children on DOD installations and DOD schools was mentioned as being in the news and was generating interest with members of congress. As a result, CNP requested background information and a 5x8 on the subject. The information paper was developed by my team and the final 5x8 that was presented to CNP on child-on-child sexual assault are attached.

QUESTION 2: Have any of your individual installations provided FAP information related to any cases as a result of the child on child AP article(s), specifically installations in North Carolina? If so please provide a copy or summary of that information.

RESPONSE: I queried all of our regions and all denied that any installations within their AOR provided any information related to the cases of child on child.

QUESTION 3: Please provide information on your Service's procedures for:

- a) Handling of child on child cases
- b) Handling of child cases that do not go to the IDC (meet the caregiver role definition)

RESPONSE:

- a) specifics of how these cases are managed are indicated in the attached information paper.
- b) all FAP cases that do not meet the criteria for abuse at the IDC are required to be processed through the CCSM (within five working days of the IDC), where the case is closed and/or recommendations are made for voluntary supportive services.

QUESTION 4: Any specific references in your Service policy(ies) related to #3 (please attach verbiage)

RESPONSE: Draft OPNAVINST 1752.2C Family Advocacy Program, reinforces the need for the local Military Medical Treatment Facility (MTF) or Fleet and Family Support Center (FFSC) to provide information and referral supportive services (i.e. counseling, victim advocacy support) to minor victims in cases of sexual abuse/assault that are not perpetrated by a parent, guardian, foster parent, or caregiver.

QUESTION 5: Do you have the ability to provide the number of child on child cases you have seen for supportive services in a given year?

RESPONSE: No. The supportive services that are provided in these types of incidents fall under the Navy's clinical case management system, not FAP cases. The Navy does not currently have the data mine to pull information on child on child specific to clinical cases.

QUESTION 6: If yes to #5, can you give us a number for the past 3 years (2015, 2016, 2017)?

RESPONSE: N/A

Please let me know if you need anything further.

Subject: HOT - Urgent Info Needed on Child on Child Cases

FAP Leads,

As you are aware, articles were released last week by the Associated Press and Stars and Stripes discussing incidents of child on child problematic sexual behaviors in the DoD, specifically at DoDEA schools. OSD FAP has been a major party to the ensuing conversations around how the DoD handles these cases. Yesterday I attended briefings with Congressional staffers from the Senate Armed Services Committee, and individual members with particular interest in this issues.

In order for us as a FAP team to determine the way forward, I am hoping you can provide me with some information from your Service. I greatly appreciate if you can answer the following questions, and provide any additional information you think may be helpful, as we work through this issue.

- 1) Please provide a copy of any FAP response/information you were tasked to provide at the Service level related to the child on child AP article(s)?
- 2) Have any of your individual installations provided FAP information related to any cases as a result of the child on child AP article(s), specifically installations in North Carolina? If so please provide a copy or summary of that information.
- 3) Please provide information on your Service's procedures for:
 - a) Handling of child on child cases
 - b) Handling of child cases that do not go to the IDC (meet the caregiver role definition)
- 4) Any specific references in your Service policy(ies) related to #3 (please attach verbiage)

5) Do you have the ability to provide the number of child on child cases you have seen for supportive services in a given year?

6) If yes to #5, can you give us a number for the past 3 years (2015, 2016, 2017)?

This is a fast moving train with many players - I am hoping you can provide me this information via email by Friday COB so that we can stay organized and communicate with accurate information with FAP's best interests in mind. If you absolutely cannot complete this task without a formal tasking to your Service, let me know ASAP.

Appreciatively,
Tib

Subject: Child Sexual Problem Behaviors

Good morning! We need to move quickly on this issue based on the events yesterday. We need to reach out to the Service contacts you pinged at the data meeting (or do we need to formally task the Services). Need the following:

Copy of existing policy
Procedures
Tracking
If tracking exists can they give us a number for the past 3 years?

Happy to get on a conference call.
